INTRODUCTION
Pharmaceutical distribution is a very essential part of equal access to medicines. Pharmaceutical Wholesalers (PBF) are an integral part of the distribution process of medicinal products (Yusuf & Avanti, 2020). One of the focuses of the pharmaceutical industry is the distribution of medicines by Pharmaceutical Wholesalers (PBF) to consumers, both health institutions and non-health institutions (Listyowati et al., 2023). Pharmaceutical Wholesalers (PBF) are companies in the form of legal entities that have permits to procure, store, distribute medicines and medicinal ingredients in large quantities in accordance with statutory provisions (Febriani et al., 2020). The existence of pharmaceutical distribution or PBF is one of the efforts to improve the level of public health. With PBF, the need for pharmaceutical preparations can be met (Priscilla Nyapil, 2023). In 2020, Indonesia experienced the Covid-19 outbreak, various aspects were affected by the impact of this outbreak, especially the health aspect (Muhammad Hidayat, 2022). As a result of this outbreak, of course the pharmaceutical industry and
medical equipment industry in Indonesia have also experienced very rapid development, especially after the Covid-19 pandemic outbreak. This is certainly a positive signal for business players in the medical equipment industry because it shows that this industry is still promising. With this promising potential, business players in this industry must be innovative and adaptive in order to compete and maintain business continuity (Bhawa, Ida Bagus Made Djiwa & Dewi, 2015). Based on data for the last 5 years (2015–2019), company pharmacy in Indonesia has increase as many as 132 new companies. Considering that Indonesia is a country with a population biggest 4th in the world, so people need to consume medicines and the need for tool health what we can be certain of is Enough is large and the pharmaceutical market also has great opportunities For compete (Mourine & Septina, 2023). In sector Industry pharmaceuticals and tools health fall into a category experience request high (high demand) (Handoko et al., 2020). According to Ministry of Industry of the Republic of Indonesia, in 2020 growth group Chemical, Pharmaceutical and Traditional Medicine Industries reach of 9.39%, which is not just increase from growth of 8.48% in 2019, but also an growth group industry highest among group industry others (Nopriandri, 2023). Sector pharmacy is one of what investors choose to do investment in Indonesia p This Of course just make business this is very interesting For executed (Oktiwiati & Nurhayati, 2020).

The main focus of the Indonesian Ministry of Health's work program in transforming the Indonesian Health system is focused on six pillars, including: transformation of primary services, transformation of referral services, transformation of the health system, transformation of the health financing system, transformation of health human resources, and transformation of health technology.

With this transformation, 514 districts/cities will be projected to have hospitals capable of handling catastrophic problems. The development will be carried out in stages, with the aim of reaching 50% in 2025 and 100% in 2027. Thus, the development of government-owned hospitals in Indonesia is projected to be completed by 2027.

In addition, the health sector is projected to have good long-term growth prospects, supported by economic growth. In the long term, this sector is projected to have positive sentiment because the need for health services will continue to increase.

PT JPA implements various human capital strategies to manage human resources as the company's main assets. They focus on training and career development to improve HR skills, in line with the company's market penetration and market development strategies. The sales team, as the spearhead of the company, is given special attention through intensive training and participation in industrial exhibitions.

The corporate culture at PT JPA supports team members in overcoming internal and external challenges, reduces uncertainty, and promotes company continuity. Company artifacts, such as logos and ID cards, represent company values such as fast and flexible service to customers, as well as solidarity and welfare for employees.

Company norms and values at PT JPA serve as moral and behavioral guidelines for employees. Values such as professionalism, cooperation, and customer satisfaction are emphasized through socialization that is integrated in the organizational culture. The assumptions held by the company, such as commitment to service quality and effective collaboration with vendors, also influence the company's overall culture.

PT JPA conducts employee performance evaluations periodically to monitor and improve their performance. Some of the aspects evaluated include leadership, discipline, professionalism, teamwork, and attendance, with clear assessment criteria to provide constructive feedback to employees.
In managing employment relations, PT JPA follows government regulations, especially regarding the employment termination process. The company has clear procedures for dealing with various situations that require layoffs, such as voluntary resignation, serious violations, or organizational efficiency.

This research done for know how much big opportunity business This especially in Banten province and DKI Jakarta Province by using human resources in accordance with company characteristics. Research methods This use method qualitative by using technique studies literature and interviews and documentation. As is study This so company big pharmaceuticals and tools health can measure how much big opportunity business This specifically for the Banten and DKI Jakarta regions

6. Recruitment Scheme

Every company realize that the most important asset in a company organization are human resources, HR that will be it role important in a organization. Therefore that's the main key For creating quality and superior human resources Can seen from the process flow recruitment (Oktiwiati & Nurhayati, 2020). The purpose of the recruitment process This Alone that is For selecting in a way strict To use get competent human resources in the field according to the needs of the organization or company (Agia & Sudrajat, 2023).

PT JPA's recruitment scheme uses 2 (two) methods, namely internal recruitment and external recruitment. PT JPA divides internal recruitment based on 2 needs, namely job rotation and higher positions. This internal recruitment is considered to save costs and time and can provide high employee satisfaction and motivation. Meanwhile, external recruitment uses a jobseeker provider application which is paid according to needs. The qualifications and job description for each
position are attached in the HR attachment. And here are the steps that will be taken in the PT JPA employee recruitment scheme process:

a. Manage needs analysis
Each division carries out an analysis regarding employee needs and submits it to the HRD team, then the HRD team will review the proposed number of employees and submit it to the Director.

b. Management Approval
After the application made by the HRD team is approved by the Director, the next stage is the employee selection process.

c. Selection process
The HRD team will disseminate information about the vacancies through the Jobstreet application, namely the Jobseeker provider application. Then, after receiving several incoming applications that match the qualifications, PT JPA will carry out an interview system to get the number of employees needed in a short time.

d. Psychotest
The psychological tests carried out by PT JPA will lead to intelligence tests and personality tests. This psychological test process was carried out directly by HRD PT JPA.

e. User Interviews
After being declared to have passed the psychological test stage, the candidate will be invited to conduct an interview with the user. Each candidate will be assessed by the user during the interview process.

f. Contract Signature
After being declared to have passed the interview stage with the user, the candidate will be invited back by the HR Department to carry out the final stage, namely signing the contract between PT JPA and the employee.

TRAINING AND DEVELOPMENT PROCESS
Training and Development Strategy
Training is a systematic change of knowledge, skills and attitude that continues to improve for each employee so that they can realize the targets PT JPA wants to achieve. Meanwhile, development is an activity to maintain and improve competence (knowledge, skills and abilities) to achieve company effectiveness. PT JPA will carry out training and development strategies to achieve the company's goals and the following are the stages in making training and development strategies:

1. Internal conduct analysis
In this stage, the sales and purchasing positions will be given a training program, because looking at the duties of these two positions which directly deal with customers and suppliers.

2. Arrange training programs
At this stage the company will design a training program that focuses on developing skills relevant to the employee's duties and responsibilities. And the following is an overview of the program plan that has been made by PT JPA.

<table>
<thead>
<tr>
<th>No</th>
<th>Training materials</th>
<th>Short-term</th>
<th>Mid Term</th>

</thead>
<tbody>
<tr>
<td>1</td>
<td>Knowledge of distribution aspects (upstream to downstream) and</td>
<td>2nd year</td>
<td>4th Year</td>
<td>Sales and Relationship</td>
</tr>
</tbody>
</table>

Table 4. Types of Training
3. Implementation of training programs

At this stage training activities will be carried out either internally or using external parties who we will invite to provide training to several positions that have been determined in the internal analysis.

4. Evaluation

At this stage it is necessary to carry out a comprehensive evaluation of all training programs that have been carried out to assess the level of success of the training itself.

CAREER DEVELOPMENT PROCESS

Career Development Scheme

At PT JPA, career paths have been designed from the start, the career direction of employees who have joined, of course to obtain a better career, there are several qualifications that must be met by these employees, including;

1. Appointment of Permanent Employees

In this case, the employee was initially an employee with probationary status for 3 months. If the employee provides good performance, he will be appointed as a permanent employee, based on the results of the assessment determined by the company. Therefore, it can be described in the assessment chart in table 8 as follows;

<table>
<thead>
<tr>

2. Position Promotion

Employees who excel in a company will certainly receive awards or benefits covering many things. One type of reward for outstanding employees is a promotion. Promotion can be obtained if the employee continues to improve his performance so that he can make a big contribution to the company, namely by helping to realize the company's goals.

Benefits for Employees

Compensation System and Other Benefits

Based on company regulations, PT JPA provides several types of compensation, employee compensation generally provided by the company, namely:

1. Wages or Salary

Each employee receives a wage/salary according to the wage scale (Salary Structure) which is paid every month to all employees. For wages / salaries
themselves, PT. JPA has followed government regulations, namely wages in accordance with the Regional Minimum Wage (UMR).

2. **Health benefits**
   
   PT JPA will provide benefits in the form of the Health Social Security Administering Body (BPJS Health) for all its employees and the benefits charged to employees are based on the legal regulations in force at BPJS Health.

3. **Employment Benefits**
   
   In addition to health insurance benefits, PT JPA will also provide the Employment Social Security Administration which includes: Security for Security (JK), Work Accident Insurance (JKK), Old Age Security (JHT), and Pension Security (JP).

4. **Holiday Allowance (THR)**
   
   Based on the Employment Law of the Republic of Indonesia No. 13 of 2003 concerning Holiday Allowances (THR), if employees have worked for 12 months, PT JPA will also provide its obligations to all employees, namely by providing Holiday Allowances (THR).

5. **Bonuses/Rewards**
   
   This compensation is a reward given by the company regarding employee achievements. The types of incentives given are in the form of bonuses and rewards as encouragement for employees to improve their performance.

6. **Paid leave**
   
   PT JPA will provide 2 (Two) types of leave to its employees, namely annual leave and maternity leave. This is based on the regulations determined by the government. In annual leave, employees are given a maximum of 12 leaves and maternity leave will be given 3 (three) months of 6 leaves. (six) weeks before giving birth and 6 (six) weeks after giving birth.

**CONCLUSION**

In order to achieve company targets, PT JPA tries to improve the quality of each employee. With such a large budget from the government, of course this is a huge opportunity for companies. Of course, companies must prepare talented employees who have capabilities in every field of work position. Not only that, PT JPA will also try to improve the abilities of each employee through training that will be given to each employee and of course an attractive career path for employees, this is to provide positive motivation for employees to always improve their performance.
